I. 次の英文を読んで、後の設問に答えなさい。

Psychics are people who can get information about people, places, or situations through a sixth sense – a sense that *exists *in addition to those of seeing, hearing, smelling, tasting, and touching. ⁽¹⁾They can use their psychic ability to heal people who are sick, to give advice, to give hints about the future, and to do many other things. And it's not just *individuals who use psychics; sometimes companies and governments use psychics, too. One year a company called Delphi and Associates *earned \$120,000 on the *stock market with the help of psychics. And the CIA (*the U.S. Central Intelligence Agency) got help from a psychic in the 1970s. This psychic was able to make a detailed *drawing of an important place in Russia.

“So ⁽²⁾how can I get some psychic help?” you may ask yourself. Well, you don't have to pay a lot of money to a professional psychic. You can start by using your own psychic ability. Everyone has a psychic sense, (**a**) most of us never learn to use it. You probably won't *immediately be able to draw detailed pictures of faraway places you have never visited, but your psychic sense can help you in other ways. (**b**), maybe you will make better choices about a job, or maybe you will “know” when there is something wrong and you need to call home *right away.

Psychic abilities are really just (**c**) sense, similar to our other five senses. The difference is (**d**) we never develop our psychic sense in the same way that we develop our other senses. We train our eyes to see the difference between a V and a U; we train our ears to hear the difference between a /ch/ and a /sh/ sound; we can feel the difference between silk and leather; we can smell and taste *if milk is sour. But our sixth sense, our psychic sense, *seldom develops very much. (**e**) most of us *ignore our psychic sense for so long, it takes some time to develop it. If you have never played soccer before, you cannot expect to be a good player after three lessons. It might take years to

become really good. Psychic ability works ⁽³⁾the same way.

To prepare yourself to *work on your psychic development, you will need to do several things, *including the following:

- ◇ Make time to be alone. It is difficult to concentrate with other people around.
- ◇ Pay attention to nature. Nature will give you more *inspiration than *man-made objects.
- ◇ Develop your imagination. Developing your imagination will help you to develop your psychic ability. An important step is to turn off your TV.
(f) we watch TV, our imagination and our psychic sense grow very *lazy.

A good teacher or book can give you some exercises to *gradually develop and control your psychic ability. ⁽⁴⁾You may be [ア. you / イ. at / ウ. “see” / エ. in / オ. surprised / カ. can / キ. the things / ク. people / ケ. places], or situations *once you know how to look with your “psychic third eye.”
